

RENEE WALTON

AI Evaluation Generalist • Part-time • Asynchronous
Remote (US) | California, United States | support@rwprescott.com | www.linkedin.com/in/reneewalton1111

PROFESSIONAL PROFILE

Driven by a passion for precision and quality. I bring a thoughtful, detail-oriented approach to my work, with strengths in analyzing information, following clear processes, preserving consistency, and creating polished written materials. Excelling in remote environments and experienced with digital tools and structured workflows, I'm now expanding that foundation into AI training, evaluation, content review, and data quality work.

WORK EXPERIENCE

Search and AI Evaluation Generalist | RW Prescott | Independent Contractor 2026 - Present

Provides search and AI evaluation support across search quality, AI-generated content, multimodal outputs, content review, and data validation. Applies careful human judgment, detailed guideline interpretation, and consistent quality standards to assess relevance, accuracy, usefulness, and overall user experience.

- Evaluates search results for relevance, user intent, usefulness, and overall result quality.
- Reviews AI-generated responses for accuracy, helpfulness, completeness, clarity, and instruction adherence.
- Assesses text, image, and video content for consistency, quality, and alignment with project guidelines.
- Performs content review, classification, validation, and quality assurance across digital evaluation projects.
- Identifies inconsistencies, factual issues, and subtle quality concerns while applying detailed guidelines.
- Works independently in remote, project-based environments, with attention to detail and confidentiality.

Service Focus: Content Review, Data Annotation, Quality Assurance & Output Validation

Digital Business Development & Market Research | Self-Employed 2002 - Present

Builds, launches, and manages niche online business ventures while providing strategic market research. Experience includes using AI-assisted research and content tools to evaluate business opportunities, research target audiences, develop products and services, create marketing strategies, and streamline digital workflows.

Service Focus: Niche Market Research, Digital Business Operations, Content Review & AI-Assisted Evaluation

Charge Capture Coordinator | City of Hope National Medical Center Duarte | Employed 1992 - 2002

Coordinated complex documentation and data review workflows across 16 ancillary medical departments in a high-accuracy healthcare environment. Reviewed records for completeness, identified and resolved discrepancies, verified data accuracy, maintained confidential documentation, and supported quality assurance processes through analysis, cross-checking, and attention to detail.

Service Focus: Data Review, Quality Assurance, Documentation Accuracy & Information Validation
